

I'd like to start lesson now

We talked about how you keep your English ability.

In order to keep your English ability, you're required to practice everyday.

In order to maintain same level of language skill, you need to keep practicing certain thing everyday same level.

②

So, to improve your level, to upper level, to improve your level to more advanced level, you need to practice more and more everyday.

That's a way.

① In order to keep same level, you need to practice by certain way everyday.

Now, you have knowledge and skill, some sort of culture in this language.

Oh, that's all right! I got a enough. Maybe I don't have to study for certain period then, one thing is very clear.

This level is going down.

That's a way.

immediately?

immediately! That's a way all the time.

- ① In order to keep level, you need to practice by certain way everyday.

- ② To improve your level, to upper level, to improve your level to more advanced level, you need to practice more and more everyday.

さらに上達するためには日々より一層の努力が必要とされる。

There is no royal road to learning.

I know some people who have experiences staying at foreign countries like United States or some other countries for some years, then they're proud of themselves.

"I have experience staying in the United States for some years."

But after staying there, they don't use English, they don't study English for long time, then now they don't speak English. They cannot speak English.

They're losing such a sense. They're losing the skill, knowledge.

So it was maybe experience  
I know those people.

Anyway, the most important thing is not place you stay

① The most important thing is how you practice yourself  
how you develop yourself.

It doesn't matter you're in NY City or not.

It doesn't matter you're in London or not.

It doesn't matter you're in Tokyo, Osaka, or any other places in the world.

The most important thing is how you develop yourself  
here on this soil, here this place.

That's the most important thing. place is not a matter

① The most important thing is how you practice yourself, how you develop yourself here on this soil, here this place.

英語を習得するために 英語圏<sup>の国</sup>での滞在経験が  
大切なのではない。

今現在、この場所で自分自身を  
アップグレードするために努力することこそ最も  
重要である。

地に足のついた学習方法

Practice makes perfect.

The most important thing is how you are,  
how you develop yourself.

Based upon the recognition of where you're standing upon.

I think I understand what you're talking because I'm sure now I am developing on this soil, here in Tokyo compare to while I was staying somewhere. So it doesn't matter. It is up to me.

It is up to you, absolutely.

Also, <sup>1</sup> it doesn't matter who you are, like a before you're Japanese, you're human being.

You need to think about that.

The importance of individuality.

You're one of human beings existing here on <sup>this</sup> Earth. It doesn't matter you're Japanese or American, Spanish. It's not important thing.

No,  
It is important for us to know that it doesn't matter and we can communicate nicely.  
It is true communication with others.

① It doesn't matter who you are, before you're Japanese, you're human being

自分が日本人であるのか、という前に地球上に存在する“人間”だと認識する=と。

The importance of individuality

一個の“個”である重要性

↓ その認識を土台にすると...

② English language is not foreign language for you.

This is your own language to express yourself.

英語は私にとって“外国語”ではなく存在。

自分を表現するための自分の言葉と存在のだ。

↓

③ You'd like to use language appropriately.

日本語でも英語でも“自分の言葉”として適切に操るように存在

Based upon I'm a just a human being here on this Earth.

It is the essence of language. When I -- through the surface of language then I can see the core of language.

The purpose of my learning English is I think I'd like to find the essence.

I mean how I can communicate with others, others means not only foreign country's people but also here Japanese people.

It doesn't matter who you are.

To communicate from heart, then I'd like to express myself.

You'd like to treat as this is your own language. This is not foreign language for you.

② This is your own language to express yourself.

I think this is my purpose to study here. It is very clear for me.

Now I don't use English on my business usually. But it's not important thing.

Of course, it's not important thing.

Of course I'd like to use English to contribute the society if I use English, if I need English.  
But at that time I'd like to use my language in right way, not wrong way.

In a right way. You'd like to use language appropriately

Appropriately.

[Appropriat - ]

Because you told me about one student who just quit. And I questioned myself why I'm studying now! Before ... maybe 10 years ago I think, at that time I wanted to use English on my job. But now I definitely changed my purpose....  
Umm ... not purpose but

Yes, your intention?

Intention has changed through lessons here.

Yes, absolutely.

So, anyway, thank you very much for giving advice for me.

You'd like to think that language is of course, this should be spoken out of your feeling and more over

④ I'd like you to use this should be out of heart. This should be out of your soul. If you are speaking all the time, all of your expression out of your soul. I tell you are... you complete your study.  
You are really real bilingual

Because already this language English language is becoming part of your body. part of yourself.

Then, I shall call you "You're real bilingual"

If you think that this is the foreign language I mean taking like Americans do, Canadians do it's not real thing. It's fake. Faking is imitation of people there

It's not a way for you to think of as this is...

Oh, yes. I'd like to use my English in my way.

In your way, yes. You'd like to use English language in your way. You'd like to originate yourself.

⑤ You'd like to originate your expression.

Like I use Japanese language in my way. It's just a same way.

Same way, yes. That's why sometimes maybe you cannot find my expressions at dictionary.

I cannot find some words, some expression.

本当のバイリンガルになるためには  
To be real bilingual.

④ I'd like you to use this should be out of heart.  
This should be out of your soul.

If you're speaking all the time, all of your  
expression out of your soul ...

You are really real bilingual.

⑤ You'd like to originate your expression.

身体の中に入った言葉 (この場合は英語) を  
心こめて、魂から発することができること。

これは自然に自分だけの表現方法を  
生み出すことができる。

⑥ Dictionary is not perfect.

Of course it is right, what I speak is, how can I say, always appropriate if someone who is distinguished I can tell that such expression is quite an understandable and I think appropriate enough.

① I'm just talking about dictionary is not perfect.

So I speak of something dictionary doesn't say.

It means you have your own way to use your language. Also, language is changing all the time.

It means your language is very fresh.

Yes, fresh.

So, I'm so happy to have such a fresh English.

Oh, I see.

Of course, academically speaking I have some technical words and <sup>the</sup> ordinary dictionary doesn't explain about that.

That's why there is another reason why you cannot find my words because I am speaking sometimes out of my academy.

Out of science I'm telling you. So sometimes dictionary is not enough to explain about, some sciences and profound word. Technical word. If I say professor made word, you cannot find such word.

"Judge made law" or something  
 That kind of word is very academic expression.

Judge made law?

"Judge made law" is case law.

This is also expression you cannot find at dictionary  
 Dictionary doesn't say so.

But in legal practice, it's a as for field of  
jurisprudence, there is such an expression.

[Edwards Spruid (Sms)]

It does make sense.
